The National Disabled Veterans Winter Sports Clinic kicks off March 30 in Snowmass, Colo.! The five-day Clinic consists of downhill and cross-country skiing, adaptive-sports workshops and educational classes, plus sponsored and self-directed activities, all aimed at providing opportunities for disabled Veterans. VA is the world leader in providing adaptive-sports instruction to U.S. military Veterans. In fact, this year's Clinic comes on the heels of the Sochi Paralympic Games, where several Veterans who started at the Clinic competed on the world's largest stage. Learn about the Clinic and how you can get involved at [www.wintersportsclinic.va.gov](http://www.wintersportsclinic.va.gov).
